📍 Malang, Indonesia | 📧 foktvn04@gmail.com | https://www.linkedin.com/in/fenny-oktaviani/ | 🌐 fenny.me

**Quality Assurance Engineer | Software Testing | API Testing**

## 🎓 Education

**Universitas Islam Nusantara – Bandung, Indonesia**
**Bachelor of Informatics Engineering (GPA: 3.81/4.00) | Sep 2020 – Aug 2024**
- Studied programming fundamentals, software development, operating systems, data structures, and more.
- Understood the Software Development Life Cycle (SDLC) from requirement analysis to deployment.

**Independent Study Program – Kampus Merdeka at Ruang Guru**
**Software Engineering & Frontend Development | Aug 2022 – Dec 2022**
- Learned data analysis, requirements documentation, and system flow diagrams.
- Developed frontend web applications using React.js, TailwindCSS, and Chakra UI.
- Gained experience in API integration, app deployment, and project collaboration using Git.

## 💼 Work Experience

**QA Manual & Data Analyst IT – Grobmedia (PT Sinar Maju)** | Apr 2024 – Mar 2025

- Performed manual testing on internal web applications to ensure system stability before release.
- Coordinated with the development team on task management in JIRA, debugging, and feature improvement based on testing results.
- Analyzed data & systems, including database validation using basic SQL queries.
- Led weekly meetings to report testing progress & bug tracking.
- Contributed to code repository management (Bitbucket).

**QA Manual Engineer – PSU Dev Team** | Sep 2023 – Feb 2024
- Created test cases & test scenarios based on requirement documents.
- Performed API testing using Postman to ensure endpoints met specifications.
- Documented User Acceptance Testing (UAT) and collaborated with developers on bug fixes.

**QA Engineer & Frontend Developer – PT Supernova** | Sep 2023 – Dec 2023
- Designed & executed test cases to ensure website quality before go-live.
- Collaborated with the frontend team on debugging & UI/UX improvements.
- Revamped the internal company's landing page using React.js & TailwindCSS.
- Understood Scrum workflows: backlog grooming, sprint planning, retrospectives.

**Frontend Developer – PT Menara Indonesia** | Feb 2023 – Jun 2023
- Developed e-learning platforms, LMS, and internal dashboards using React.js.
- Contributed to code reviews & debugging in an Agile team.

## 🛠️ Technicals Skills

✅ **Manual Testing:** Test Cases, Bug Tracking, Exploratory Testing

✅ **API Testing:** Postman, REST API Validation

✅ **Database & CI/CD:** SQL (Basic), Git, GitHub Actions

✅ **Frontend Development:** React.js, TailwindCS
